

## **We're Improving Our Campus Facilities Projects**

**Project Name:           Master Facilities Plan**

Campus Facilities Master Plans are updated every five (5) years. The Facilities Master Plan is designed to lay out the logical development and growth of MCTC Facility. Our Master Facility Plan is based upon our Academic Mission and reflects the facility needs as identified in our academic plan.

Our plan will consider enrollment growth and provide solutions that will serve MCTC students in the near future and 25 years from now.

Finally, our plan will provide a sequential order of projects to be funded by Capital and HEAPR Funds.

Master plan contents view attached PDF. Master plan due May 2010
